Cloud & DevOps: AWS Cloud, Oracle Cloud, GitHub, VS Code, DevOps Basics
Core Competencies: Full Stack Development, Problem Solving,
Cloud Computing **Soft Skills:** Team Collaboration, Communication,
Task Prioritization

PROJECTS

RecruitX – Recruitment Management *Full Stack Web System*

- Built a full stack recruitment platform with application tracking, candidate management, and a recruitment analytics dashboard.
- Designed frontend UI and backend logic to manage job postings, candidate pipelines, and hiring workflows end to end.
- Implemented data models and queries to surface candidate trends, hiring activity, and key recruitment metrics.

DineEase – Cafeteria Management System *Full Stack Web Application*

- Developed a full stack cafeteria management system covering menu management, order processing, and admin controls.
- Built backend services and database schema to support order tracking and customer preference data.
- Used order and menu data to analyze trends in popular items, supporting data-driven operational decisions.

ACHIEVEMENTS & HIGHLIGHTS

- Completed multiple industry-recognized cloud and development certifications (AWS, Oracle, IBM, Deloitte).
- Consistently maintained above 8.0 CGPA throughout academic journey.
- Participated in university-level hackathons and project exhibitions.
